

HIYA

We hope that you like this new edition of Youth Unlimited Magazine. We've had a total revamp to make the magazine more relevant to teenagers and to make it more about you! We've got loads packed into this issue from real life stories about drugs and teenage pregnancy to lofs of fun and less serious stuff. Believe us, there is something for everyone!

We've got a good editorial team working on the magazine. It's been hard work but also a giggle. We are especially proud of the magazine as this time round, it's been all about what we as young people want to write.

We feel that today teenagers are all too often stereotyped as being troublesome, but now with the new and improved Youth Unlimited we want to represent you as the cool bright individuals that you really are. We want to know what you think of our magazine so that we can make improvements to the way it looks and make the content more appealing to you. Let us know by emailing kewilsdon@yahoo.co.uk with your comments, suggestions and views.

If you want to get involved in this media project then call Kate on 07769 676735 or email on kewilsdon@yahoo.co.uk
