

Was it as good as the first film?

It is better than the first film and it is more funny. However they were both good in different ways.

What did you think about the characters?

Her accent was great and she looked the part - overweight, scruffy with no make up. It was so professional of Renee Zellweger to prepare so well for the role.

Who did you prefer - Hugh Grant or Colin Firth?

It's difficult to decide as Hugh Grant is funny but he cheats and is unreliable and Colin Firth is nice but he can be a bit boring. Hugh Grant is better looking though and we like him because he is a bad boy. Paul Nichols who had a minor role in the film was gorgeous.

Did you feel sorry for Bridget and sympathise with her?

We felt sorry for her as she tried so hard to make herself look great at times but she never did. At one point all the effort she made was ruined by a big puddle. All women can relate to her in their quest to find true love.

What was good about the film?

Some parts were very funny. For example the scenes where she

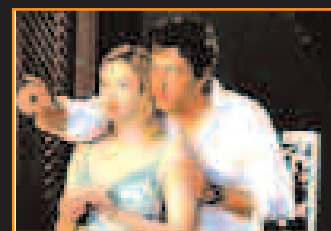

ate magic mushrooms and was singing 'Like a Virgin' in prison with the Thai people were hilarious. Her hopeless skiing was amusing too. Again in this film, there was a fight between Daniel and Mark where they ended up in a large water fountain.

What was bad about the film

Some parts were slightly repetitive in humour and overall it was too similar to the first film. The joke about the big pants had been done before.

What did you think about the storyline and the acting?

It is an unpredictable storyline with many twists and Renee Zellweger is an excellent actress.

MUSIC REVIEW

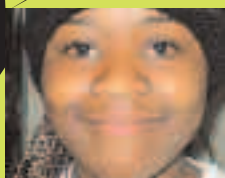

ARTIST: MARIO

NAME OF ALBUM: TURNING POINT

TO JAM 2 OR NOT (RATING): *****

For all the people that think dis Mario is Mario Wyanes: reality check, two different people, peepz !! Mario's younger and dances and is buffer (for me). Mario Wyanes is older and sings about girls dat ave cheated on him and they've moved on but it seems he can't. Yes girls Mario b back with great new tunes. If you liked his other albums than you'll love these next tunes on his new album. Smooth, slick, sexy with heart warming lyrics. My personal favourites are 'let me love you', 'Nikes fresh out the box' and 'Directions'. But you know it's really up 2 you about what song you think is your favourite. So I suggest everyone gets up and grab a CD for you-self coz copies aren't no good.

This is a very fast foot movement and there are no stops in between each step but you'll get with it given time. I got it in about 2 months but you might pick it up quicker.
KEEP IT REAL!
